February 21, 1950

Honorable Elmer E. Robinson
Mayor
City and County of San Francisco
City Hall
San Francisco, California

Dear Mr. Mayor:

The enclosed brochure on the temporary war housing in the City and County of San Francisco is submitted for the use of your Citizens' Committee on War Housing Disposition. The data included in the brochure give the general information your Committee will require to guide them in their study and recommendations on disposition of the city's war housing.

Some of the information included in the brochure is necessarily subject to change. For example, it is possible that ownership of some of the land in question may change. Similarly, the racial distribution within individual projects may vary.

You and your Committee are well aware of the complex problems which may result from discontinuance of underground utility installations such as gas, water and sewer mains. Information on this aspect of the disposition has not been included in the brochure. Obviously, however, it will be necessary in planning the termination of any or all of the housing in question — to make the land available for other purposes -- that the San Francisco Housing Authority be kept informed of all recommendations so that the closing off of utilities in one area shall not interfere with those necessary services still required in other sections.

The San Francisco Housing Commission will be glad to assist your Citizens' Committee in every way possible since it shares with you a desire to implement this program of war housing disposition in a way that will promote the best interests of our community.

Very truly yours,

E. N. Ayer
Chairman
